“SPACE 1999 - THE COMPLETE FIRST SERIES” (PG) TO MAKE ITS BLU-RAY DEBUT

Don your flares, set your ray guns to stun and prepare to take off on a High Definition journey on the Eagle transporter with the Blu-ray debut of SPACE 1999 – THE COMPLETE FIRST SERIES. The cult Gerry Anderson live action sci-fi series is available to own as a 7-disc set on 25th October 2010, RRP £79.99. This is the first time that the series is available in High Definition anywhere in the universe and this set comes packed with out-of-this world special features.

September 13th, 1999... A nuclear waste dump on the moon unexpectedly detonates, blasting the moon out of orbit and taking the inhabitants of Moonbase Alpha on a fantastic voyage of discovery to the stars, fraught with danger at every turn. Martin Landau, Barbara Bain and Barry Morse star in this memorable fantasy series filmed at Pinewood Studios.

Special features unique to this set:

- Digitally restored from new High Definition transfers
- The only Blu-ray version anywhere in the universe to contain English subtitles
- Newly remixed Dolby 5:1 tracks
- Original 'as broadcast' mono track
- Music-only tracks on all episodes except Breakaway
- Restoration of Metamorph from Series 2 exclusive to this Blu-ray edition
